Captivate 2017 Advanced
Captivate

About The Course

During this 2 day course, participants will learn Adobe Captivate 2017's higher-end functions to improve your production skills with project templates, design templates, advanced actions and scripts. Other topics covered include collaborating with team members via Captivate 2017's commenting features, and participants will learn to enhance user experiences via variables that will make it seem like each eLearning lesson has been customised. You'll learn how to create eLearning lessons that reflow to fit on just about any kind of display (including desktops, laptops, tablets, and smart phones). You'll also learn how to create responsive projects from scratch, and how to edit and produce responsive content.
